CONO canto SMART

The smart wireless loudspeaker for the track lighting systems

The ideal wireless loudspeaker for the lighting track in the shop

The CONO canto SMART is a wireless loudspeaker with integrated digital amplifier and special connection for use in all commercially available 3-phase lighting tracks. The music is received wirelessly from the NewTec SMARTplayer at a distance of up to 120 metres. Any number of loudspeakers can be used. The volume of each individual loudspeaker can also be adjusted by remote control during operation. The loudspeaker housing is made of glass-fibre reinforced ABS and can therefore be used directly next to large heat-generating spotlights. The special paint finish ensures an elegant and scratch-resistant surface structure.
